“Invest in the Long Game”

For the first time in a long time, California is not under drought conditions. In fact, the reservoirs and creeks and rivers are overflowing. The long sought rain is now causing flooding and mudslides.

Here in Cache Valley, we’ve been having mild but wet conditions as well. We are also experiencing floods. My friends back east report that they’re being pounded with snow. There have been days when the white-out was so serious that even the snowplows had to stop.

The weather is changing. Can we change with it?

It is still a good idea to carpool. It is still a good idea to turn off your car instead of idling. It is still a good idea to take the bus or bicycle or walk. It is still a good idea to bring your own bags when you shop. It is still a good idea to recycle. Purchasing alternative energy is still a good idea. Contacting your legislators about global warming and giving them a piece of your mind is still a good idea. Extra points if all of your “new” clothes come from Somebody’s Attic.

The only problem with these ideas is that everyone has heard them before and all too many people have dismissed them as being too small, too tame to challenge something as awe inspiring as the weather.

They don’t believe that small changes, applied consistently, bring about large results. They believe the weather is in God’s hands – not in ours.

We must invest in the long game: Looking forward not months or years, but decades and centuries. We must invest in our children and our grandchildren; teaching them to work for a day when no one fears the weather. They know how to influence it, to change it as best fits their needs.

This is not a fantastic sci-fi dream. We know perfectly well that our actions affect the weather. The challenge is to determine how to do so purposefully.

- *We hold in our hearts all of those around the world in harm’s way*

On rebirth…

“Sometimes you have to kind of die inside in order to rise from your own ashes and believe in yourself and love yourself to become a new person.”  - Gerard Way

“If you live in the dark a long time and the sun comes out, you do not cross into it whistling. There's an initial uprush of relief at first, then—for me, anyway—a profound dislocation. My old assumptions about how the world works are buried, yet my new ones aren't yet operational. There's been a death of sorts, but without a few days in hell, no resurrection is possible.”  - Mary Karr
